

SAT Summary for Exam: SAT 3 **Broughton, Barry**

Student: **Barry Broughton**
Student ID: **8787657034**
Grade: **2**
School: **In Home**
Provider Contact: **Graham Dobson Tel: 239-524-5878 Email: testprep@junoexcel.com**
Test Date: **02-14-17**

Evidence Based Reading and Writing Score	430
Math Score	660

Composite Score	1090
Essay Score (Reading/Analysis/Writing)	2/4/2

Section and Test Scaled Scores

Reading	24
Writing & Language	19
Math	660

Subskill Scaled Score Summary (1-15)

Problem Solving/Data Analysis	10
Heart of Algebra	11
Passport to Advanced Math	13
Words in Context	6
Command of Evidence	7
Standard English Conventions	5
Expression of Ideas	6

Cross-Test Skill Scaled Score Summary (10-40)

Analysis in History/Social Studies	22
Analysis in Science	21

Previous Scores					
Exam	Date	Essay	Evidence Based Reading & Writing	Math	Composite
SAT 4	02-15-17		400	410	810

Interpreting your score report

The Reading & Writing Score is made up of the Reading Section and the Writing & Language Section. The Math Score is made up of both Math Sections, with and without a calculator. As in a non-practice SAT a raw score is generated first, and then a scaled score is produced on the 400-1600 scale. The scaling process ensures that the final score is comparable across other test forms.

The raw score is calculated by adding 1 point for each question answered correctly and subtracting no points for each multiple choice problem answered incorrectly or left blank.

The Composite score is simply the sum of your two scaled scores.

If you opted to take the essay, your essay can be scored from 2-12 if using the old SAT method or from 2-8 in each of the dimensions of Reading, Analysis & Writing.

In the Your Answer column you will see one of the following: a + indicates that you answered the question correctly; a letter A-K indicates your incorrect answer (the correct answer is in the column to the left); a dash represents an omitted question. You can quickly identify your incorrect answers and how they are clustered on the exam, because the section and number are highlighted in red. Questions left blank are highlighted in light blue. The SAT has no penalty for incorrect answers, so you should not leave questions blank even if it means having to randomly fill in bubbles as time runs out.

The Item Type analyses allow you to see your relative performance in the different question subjects and types. The Raw column tells you your net raw points for that row. The % of Possible column is your raw points divided by the total raw points possible on those questions. For example, if you achieved 9 raw points on the 15 questions about Data Representation questions, then your % of Possible would be 9/15 or 60%.

If you have any questions about your scores, interpreting this report, the questions you got wrong, or how you can improve, please call Your Company Name Here.
